Seasons' Greetings ?Happy New Year

Dear Members and Friends of the Chinese Biopharmaceutical Association,

As the year of 2010 quickly draws to a close, we want to thank you for your enthusiasm, participation and support to our organization. With your help and support, CBA has made great strides in promoting science, technology, and business development in the biopharmaceutical fields through information exchange and by fostering collaborations.

Chinese Biopharmaceutical Association is a 100% volunteer-based organization. With a mission to promote cross-border, cross-function collaborations between the US and Chinese biotech, pharmaceutical industries and academic institutions, we work tirelessly to create valuable connections and opportunities for all our stakeholders.

The New Year promises to be very exciting as we continue to deliver more opportunities, innovations and partnerships to you. We would like to give special appreciation to our sponsors, without whom all these accomplishments would not become true.

On behalf of the CBA Board of Directors and the Executive Committee, I sincerely wish you and your family a joyous and prosperous year of 2011!

Warmest Wishes,
